Contents • Volume 25 • Number 3 • May–June 2006

http://mksci.pubs.informs.org

Editorial: Errors in the Variables, Unobserved Heterogeneity, and Other Ways of Hiding Statistical Error
Steven M. Shugan
203

Optimal Data Interval for Estimating Advertising Response
Gerard J. Tellis and Philip Hans Franses
Unit-exposure is the sweet spot between biased aggregation and costly disaggregation.
217

How Does Objective Quality Affect Perceived Quality? Short-Term Effects, Long-Term Effects, and Asymmetries
Debanjan Mitra and Peter N. Golder
Consumers change their perceptions of quality very slowly, which unfairly helps some brands and hurts others.
230

Research Notes

On the Profitability of Firms in a Differentiated Industry
Bing Jing
For both exogenous and endogenous quality choices of firms, we characterize industry conditions for producing a higher-quality good to be more (or less) profitable.
248

Incorporating Satisfaction into Customer Value Analysis: Optimal Investment in Lifetime Value
Teck-Hua Ho, Young-Hoon Park, and Yong-Pin Zhou
A firm will overinvest in productive processes if it approximates the mixture customer arrival processes due to variation in customer satisfaction by a single aggregate process.
260

An Integrated Choice Model Incorporating Alternative Mechanisms for Consumers' Reactions to In-Store Display and Feature Advertising
Jie Zhang
Incorporating behavioral mechanisms in a brand choice model provides a better account of the joint effects of promotions.
