Key words: editorial comments.

I am pleased to announce that we have a number of new editorial board members joining our team with this issue. Alexandra Newman of the Colorado School of Mines will serve as an editor-at-large and will handle papers in optimization. Rich Metters of Emory University will be an associate editor of operations management, with a focus on service operations. You will also notice in this issue that Mohan Sodhi is now the guest editor for the Edelman issue. He will serve in that role for three years. Thanks to all of these folks for agreeing to serve *Interfaces* and to all of the continuing board members for their dedicated service.
