The success of *Management Science* critically depends on the community of scholars who voluntarily contribute their time to provide thoughtful reviews of the manuscripts submitted to the journal. The workload is considerable: In the 2022 academic year (July 2021 through June 2022), *Management Science* received 7,367 reviews from 4,336 individuals. The majority of those reviews were received on or before the due date, which allowed us to complete 80% of our decisions within 90 days.

Although we deeply appreciate the service of all those who contribute to our journal, the editorial board has decided to annually grant service awards to those associate editors and reviewers who have offered exceptional service in the manuscript evaluation process.

Associate editors not only read manuscripts but they also recruit reviewers, read their reports, and write recommendations to the department editors. All of our associate editors are dedicated to the journal, but some are notable for not only handling a significant number of manuscripts but also for ensuring a reasonable turnaround time between when they are assigned a paper and when they return their recommendations. We recognize these associate editors with our Meritorious Service Award or, for those who clearly distinguish themselves along both of those dimensions, our Distinguished Service Award.

As with our associate editors, the service of reviewers is critical to the journal. Some graciously agree to review many manuscripts and then consistently write timely, unbiased, and thoughtful reports. We are pleased to grant them our Meritorious Service Award or, for those who demonstrate a remarkable commitment to the journal on each of those attributes, our Distinguished Service Award.

The *Management Science* Distinguished Service Award recipients for the 2022 academic year are as follows:
