With 12,500 members from nearly 90 countries, INFORMS is the largest international association of operations research (O.R.) and analytics professionals and students. INFORMS provides unique networking and learning opportunities for individual professionals, and organizations of all types and sizes, to better understand and use O.R. and analytics tools and methods to transform strategic visions and achieve better outcomes. For more information on INFORMS, its publications, membership, or meetings visit <http://www.informs.org>

Working Papers

In general, those institutions that provide papers free of charge have limited supplies of these papers and will fill requests on a first-come first-served basis until supplies are depleted. Furthermore, the no-charge policy applies, in general, to single copies only. In some cases, prices for quantity orders can be negotiated.

The following papers were received from the Operations Research Center, Room 24-215, Massachusetts Institute of Technology, Cambridge, Massachusetts 02139:

- FISHBURN, P. C., AND KEENEY, R., "Generalized Utility Independence and Some Implications," April 1974, Technical Report No. 93.
GARTNER, N., LITTLE, J. D. C., AND GABBAY, H., "Optimization of Traffic Signal Settings in Networks by Mixed-Integer Linear Programming," March 1974, Technical Report No. 91.

The following papers were received from the Graduate School of Industrial Administration, Carnegie-Mellon University, Pittsburgh, Pennsylvania 15213:

- BALAS, E., "Intersections Cuts from Disjunctive Constraints," February 1974, Management Sciences Research Report No. 330.
JERSLOW, R. G., "Cross-Branching in Bivalent Programming," March 1974, Management Sciences Research Report No. 331.

The following papers were received from the Institute for Research in Social Science, University of North Carolina, Chapel Hill, North Carolina 27514:

- RICHARDSON, R. J., WILLIAMS, O., DENYER, T., MCGAUGHEY, S., AND WALKER, D., "Perspectives on the Legal Justice System: Public Attitudes and Criminal Victimization," 1972, \$1.50 (payment must accompany order).
—, WALKER, D., AND KUYKENDALL, M., "Judicial Activism: A Measure of Intra-system Conflict," November 1973, Research Previews 20-2.
WEISS, S. F., BURBY, R. J., KAISER, E., DONNELLY, T. G., AND ZEHNER, R. B., "New Community Development: A National Study of Environmental Preferences and the Quality of Life," April 1973, Research Previews 20-1.

The following papers were received from Ann Marie Ventum, Coordinator, Research Paper Series, Graduate School of Business, Stanford University, Stanford, California 94305 (payment indicated must accompany order):

- BLACKBURN, J. D., AND EPPEN, G. P., "A Two Asset Deterministic Cash Balance Problem," January 1973, \$2.00, Research Paper No. 133.
BONINI, CHARLES P., "Integer Programming," February 1974, \$2.50, Technical Report No. 36.
CUMMINS, J. M., "A Theory of Cost Overruns in Defense Procurement," August 1973, \$2.50, Research Paper No. 179.

- HOLLOWAY, C. A., AND NELSON, R. T., "Job Shop Scheduling with Due Date and Operation Overlap Feasibility," November 1973, \$1.50, Research Paper No. 189.
- , —, WEHRUNG, D. A., AND ZEITLIN, M. P., "An Interactive Procedure for the School Boundary Problem with Declining Enrollment," March 1973, \$2.00, Research Paper No. 148.
- KALLIO, M., AND PORTEUS, E. L., "Improved Penalties for the Branch and Bound Algorithm," December 1973, \$1.00, Research Paper No. 190.
- LUCAS, H. C., "Behavioral Factors in System Implementation," November 1973, \$1.50, Research Paper No. 188.
- , "Systems Quality, User Reactions and the Use of Information Systems," January 1974, \$1.50, Research Paper No. 193.
- LEAVITT, H. J., "Beyond the Analytic Manager," January 1974, \$3.00, Research Paper No. 195.
- MIDDLETON, M. R., "Computer Programs for Elementary Decision Analysis," May 1973, \$4.50, Technical Report No. 25.
- NIELSEN, N. R., "Dynamic Memory Allocation in a Simulation Environment," August 1973, \$2.50, Research Paper No. 181.
- PORTEUS, E. L., "On the Optimality of Structured Policies in Countable Stage Decision Processes," February 1973, \$4.00, Research Paper No. 141.
- , AND LANSDOWNE, Z. F., "Optimal Design of a Multi-Time, Multi-Location, Multi-Repair Type Repair and Supply System," June 1973, \$3.00, Research Paper No. 165.
- WEINBERG, C. B., "Dynamic Correction in Marketing Planning Models," August 1973, \$1.50, Research Paper No. 177.

The following papers were received from the Department of Industrial and Operations Engineering, College of Engineering, The University of Michigan, Ann Arbor, Michigan 48104:

- BECKER, J., "Explore: A Computer Code for Solving Nonlinear, Continuous Optimization Problems," 1973, Technical Report 73-6.
- CHERRY, W. P., AND DISNEY, R. L., "Some Properties of a Process Occurring in the Superposition of Two Independent Renewal Processes," April 1973, Technical Report 73-3.
- DISNEY, R. L., "Some Problems in Queueing Network Theory," March 1973, Technical Report 73-2.
- , AND CHERRY, W. P., "Some Topics in Queueing Network Theory," May 1973, Technical Report 73-4.
- , AND DAVIGNON, G., "Single Server Queues with State Dependent Feedback," November 1973, Technical Report 73-10.
- METRICK, L. B., AND MAYBEE, J. D., "Assignment Ranking," 1973, Technical Report 73-7.
- MURTY, K. G., "Note on a Bard-Type Scheme for Solving the Complementarity Problem," August 1973, Technical Report 73-8.
- WILSON, R. C., "Decision Making and Computations in Material Handling," October 1973, Technical Report 73-9.

The following papers were received from the Department of Industrial and Systems Engineering, Room 303 Weil Hall, University of Florida, Gainesville, Florida 32611:

- CHAN, A. W., AND HEARN, D. W., "A Solution Procedure for a Rectilinear Distance Minimax Round Trip Location Problem," January 1973, Research Report No. 73-3.

- DEARING, P. M., AND FRANCIS, R. L., "A Minimax Location Problem on a Network," September 1973, Research Report, No. 73-14.
- DORSEY, R. C., HODGSON, T. J., AND RATLIFF, H. D., "A Network Approach to a Multi-Facility, Multi-Product Production Scheduling Problem without Backordering," January 1973, Research Report No. 73-5.
- , —, AND —, "A Network Approach to a Multi-Facility, Multi-Product Scheduling Problem with Backordering," January 1973, Research Report No. 73-6.
- , —, AND —, "A Multiple Facility, Multiple Product Production Scheduling Problem with Overtime," January 1973, Research Report No. 73-7.
- , —, AND —, "An Efficient Integer Programming Algorithm for a Multi-Facility, Multi-Product Production Scheduling Problem," January 1973, Research Report No. 73-8.
- ELZINGA, J., HEARN D., AND RANDOLPH, W. D., "A Minimax Multifacility Location with Euclidean Distances," July 1973, Research Report No. 73-13.
- FRANCIS, R. L., AND PAPINEAU, R. L., "A Minimax Layout Problem on the Line Involving Distances Between Classes of Objects," July 1973, Research Report No. 73-11.
- , AND —, "A Minimax Planar Facility Layout Problem," January 1974, Research Report No. 74-1.
- HAAS, C. AND HODGSON, T. J., "A Shop Model for a Naval Air Rework Facility," January, 1973, Research Report No. 73-9.
- , AND —, "Analysis for a Naval Air Rework Facility (NARF) One-for-One Exchange Inventory and Repair System," August 1973. Research Report No. 73-10.
- HEARN, D. AND RANDOLPH, W. D., "Dual Approaches to Quadratically Constrained Quadratic Programming," September 1973, Research Report No. 73-15.
- MCWHITE, P. B., AND RATLIFF, H. D., "Allocation of Mine Countermeasure Resources When Shipping Flow is Fixed," August 1973, Research Report No. 73-12.
- , AND —, "Defending a Logistics System Under Mining Attack," February 1974, Research Report No. 74-2.
- MCWHITE, P., AND RATLIFF, H. D., "Modeling Mining Attrition Using Networks with Gains," January 1973, Research Report No. 73-4.
- MUTH, E. J., "Matrix Formulation and Solution of Conveyor Flow Problems," January 1973, Research Report No. 73-2.
- , "Moments Expressed in Terms of the Hazard Function and Applications," April 1974, Research Report No. 74-3.
- RATLIFF, H. D., SICILIA, G. T., AND LUBORE, S. H., "Finding the N Most Vital Links in Flow Networks," January 1973 Research Report No. 73-1.

The following papers have been received from the Faculty of Management Sciences, University of Ottawa, Ottawa, Ontario, Canada, K1N 6N5:

- ACHOU, O. AND PRICE, W. L., "A Markovian Model of a Training Process Within a Hierarchy," Working Paper 73-23.
- ALLAIRE, Y., "A Model for the Evaluation of Risk and Additional Information in New Product Decisions," Working Paper 73-13.
- BELKAOUI, A., "Financial Ratios as Predictors of Takeovers," Working Paper 74-5.
- BREU, R., AND BURDET, C.-A., "Branch and Bound Experiments in Zero-One Programming," Working Paper 73-24.
- , AND —, "Nurse Staffing and Patient Load in a Hospital," Working Paper 74-3.
- BURDET, C.-A., "Convex and Polaroid Extensions," Working Paper 73-21.

- , "On Cutting Planes," Working Paper 73-22.
- , AND SETHI, S. P., "On the Maximum Principle for a Class of Discrete Dynamical Systems with Lags," Working Paper 74-2.
- HENIN, C. AND DOUTRIAUX, J., "A Modified Simplex Interactive Algorithm for Cubic Programming," Working Paper 73-15.
- RYAN, P., "A Combined (Primal Enumerative) Integer Programming Algorithm," Working Paper 73-5.
- , "Decomposition of Large-Scale 0-1 Programs," Working Paper 73-9.
- , "A Primal-Dual Integer Programming Algorithm," Working Paper 73-10.
- , "Multi-Machine Job Scheduling," Working Paper 73-14.
