OPERATIONS RESEARCH

2001 MERITORIOUS SERVICE AWARD RECIPIENTS

All too often, the hard work that members of the scholarly community do to support our profession goes unrecognized. For the sixth year, the Editorial Board of *Operations Research* has decided to reward outstanding service to the journal's scholarly mission.

Associate editors and referees who did an exceptionally professional job by submitting timely, unbiased, and thoughtful reviews were considered for this award.

This award is just a small token of the appreciation for exceptional work performed on behalf of *Operations Research* and our profession. We thank these individuals for their effort to make *Operations Research* the premier journal of the field.
