With 12,500 members from nearly 90 countries, INFORMS is the largest international association of operations research (O.R.) and analytics professionals and students. INFORMS provides unique networking and learning opportunities for individual professionals, and organizations of all types and sizes, to better understand and use O.R. and analytics tools and methods to transform strategic visions and achieve better outcomes. For more information on INFORMS, its publications, membership, or meetings visit <http://www.informs.org>

About Authors

Mats Alvesson (“Unraveling HRM: Identity, Ceremony, and Control in a Management Consulting Firm”) is a professor at the Department of Business Administration, School of Economics and Management, Lund University, Sweden. His research interests include knowledge work, critical theory, organizational culture, identity in organizations, and qualitative methods. **Address:** Department of Business Administration, Lund University, P.O. Box 7080, S 220 07 Lund, Sweden; e-mail: mats.alvesson@fek.lu.se.

Wai Fong Boh (“Expertise and Collaboration in the Geographically Dispersed Organization”) is an assistant professor at Nanyang Business School in Singapore. She received her Ph.D. in information systems from Carnegie Mellon University. Her research interests are in the areas of knowledge management and organizational learning. Her work has been published or is forthcoming in *Management Science*, *Organization Science*, *Journal of Management Information Systems*, and *Communications of the ACM*. **Address:** Nanyang Business School, Nanyang Technological University, Nanyang Ave., Singapore 639798; e-mail: awfboh@ntu.edu.sg.

Richard J. Boland, Jr. (“Wakes of Innovation in Project Networks: The Case of Digital 3-D Representations in Architecture, Engineering, and Construction”) is Professor of Information Systems and Professor of Accountancy at the Weatherhead School of Management, Case Western Reserve University. He is also a senior research associate at the Judge Institute of Management at the University of Cambridge. His research emphasizes interpretive studies of how individuals experience the design, implementation, and use of information systems. He has served as Professor of Accounting at the University of Illinois, Urbana-Champaign, as a visiting professor at the Anderson Graduate School of Management, University of California, Los Angeles, and as Malmsten Professor at the Gothenburg School of Economics. **Address:** Department of Information Systems, Case Western Reserve University, 10900 Euclid Ave., Cleveland, OH 44106; e-mail: boland@case.edu.

Robert Bussjaeger (“Expertise and Collaboration in the Geographically Dispersed Organization”) is the Vice President for Finance and Director of the Corporate Business Office of American Institutes for Research. He is a CPA and received his B.A. in economics from George Mason University and his M.S. in accounting from the University of Missouri. He has 26 years of experience in the financial management of geographically dispersed organizations. He joined AIR in 1994 as a result of the merger with Pelavin Associates, where

he served as Director of Finance. **Address:** American Institutes for Research, 1000 Thomas Jefferson St., NW, Washington, D.C. 20007-3835; e-mail: rbussjaeger@air.org.

Myong-Hun Chang (“Innovators, Imitators, and the Evolving Architecture of Problem-Solving Networks”) is Professor of Economics at Cleveland State University, where he teaches industrial organization, game theory, and competitive strategy. His current research involves agent-based computational modeling and the dynamics of learning in complex social and organizational systems. **Address:** Department of Economics, Cleveland State University, Cleveland, OH 44115; e-mail: m.chang@csuohio.edu.

Robert J. David (“From Plan to Plant: Effects of Certification on Operational Start-up in the Emergent Independent Power Sector”) is an assistant professor of strategy and organization in the Desautels Faculty of Management at McGill University. He studies organizations and industries from an institutional perspective. He earned a Ph.D. in organizational theory from Cornell University in 2001. His work has been published in *Research Policy*, *Strategic Management Journal*, and *Academy of Management Journal*. Current collaborative projects include studies of the legitimization of early management consulting firms, the role of management consultants in generating management fashions, and the early evolution of private liquor retailing in Alberta. **Address:** McGill University Faculty of Management, 1001 Sherbrooke St. West, Montreal, Quebec, Canada H3A 1G5; e-mail: robert.david@mcgill.ca.

J. Alberto Espinosa (“Familiarity, Complexity, and Team Performance in Geographically Distributed Software Development”) is an assistant professor of information technology and UPS Scholar at the Kogod School of Business at American University in Washington, D.C. He received his Ph.D. in information systems from the Tepper School of Business at Carnegie Mellon University. His research focuses on understanding how teams coordinate across geographic and global boundaries and which team processes and information technologies are most effective in bridging these boundaries to achieve high levels of performance. His current research focuses on global software and technical teams, team knowledge, team coordination, and spatial and temporal boundaries. **Address:** Kogod School of Business, American University, Washington, D.C. 20016; e-mail: alberto@american.edu.

Michelle Gittelman (“Does Geography Matter for Science-Based Firms? Epistemic Communities and the

Geography of Research and Patenting in Biotechnology”) received her Ph.D. from The Wharton School, University of Pennsylvania, and is an assistant professor of management and global business at Rutgers Business School. Her research focuses on science-based innovation, knowledge diffusion, and the measurement of knowledge flows using patent data. **Address:** Department of Management and Global Business, Rutgers Business School, 94 Rockefeller Road, Livingston Campus, Janice Levin Bldg., Piscataway, NJ 08854-8054; e-mail: michelle.gittelman@business.rutgers.edu.

Joseph E. Harrington, Jr. (“Innovators, Imitators, and the Evolving Architecture of Problem-Solving Networks”) is Professor of Economics at Johns Hopkins University, where he teaches industrial organization. His current research explores collusion and organizational modeling of firm behavior. **Address:** Department of Economics, Johns Hopkins University, Baltimore, MD 21218; e-mail: joe.harrington@jhu.edu.

S. Alexander Haslam (“Putting Employees in Their Place: The Impact of Hot Desking on Organizational and Team Identification”) is Professor of Social and Organizational Psychology at the University of Exeter. He obtained his Ph.D. from Macquarie University in Australia. His work focuses on the study of social identity in social and organizational contexts, reflected in his most recent book *Psychology in Organizations: The Social Identity Approach* (Sage 2004). In 2005 he received a Kurt Lewin Award for his outstanding contribution to research in social psychology from the European Association of Experimental Social Psychology. In 2006 he was made a fellow of the Canadian Institute of Advanced Research. **Address:** School of Psychology, University of Exeter, Perry Road, Exeter, Devon EX4 4QG, UK; e-mail: a.haslam@exeter.ac.uk.

James D. Herbsleb (“Familiarity, Complexity, and Team Performance in Geographically Distributed Software Development”) is an associate professor of computer science and the Director of the Software Industry Center at Carnegie Mellon University. He received his Ph.D. and J.D. from the University of Nebraska. He also received his M.S. in computer science from the University of Michigan, where he also completed a post-doctoral fellowship. His research focuses on coordination in software engineering, especially in globally distributed and open-source software projects, as well as coordination in collaborative work more generally. **Address:** Institute for Software Research and School of Computer Science, Carnegie Mellon University, Pittsburgh, PA 15213; e-mail: jdh@cs.cmu.edu.

Jennifer A. Howard-Grenville (“Developing Issue-Selling Effectiveness over Time: Issue Selling as Resourcing”) is Assistant Professor in the Management Department of Lundquist College of Business, University of Oregon. She received her Ph.D. in technology, management, and policy at the Massachusetts Institute

of Technology. Her research explores microprocesses of organizational and institutional change, with an applied interest in changes in corporate environmental practice. **Address:** Management Department, Lundquist College of Business, University of Oregon, Eugene, OR 97403; e-mail: jhg@uoregon.edu.

Dan Kärreman (“Unraveling HRM: Identity, Ceremony, and Control in a Management Consulting Firm”) is Associate Professor at the School of Economics and Management, Lund University, Sweden. His research interest includes knowledge work, organizational control, identity, and research methods. **Address:** Department of Business Administration, Lund University, P.O. Box 7080, S 220 07 Lund, Sweden; e-mail: dan.karreman@fek.lu.se.

Sara Kiesler (“Expertise and Collaboration in the Geographically Dispersed Organization”) is Hillman Professor of Computer Science and Human-Computer Interaction at Carnegie Mellon University. She has conducted many studies on the social and organizational aspects of computer-based technologies and new communication technologies, and has coedited books including *Connections*, *Culture of the Internet*, *Distributed Work*. **Address:** Human-Computer Interaction Institute, Carnegie Mellon University, 5000 Forbes Avenue, Pittsburgh, PA 15213; e-mail: kiesler@cs.cmu.edu.

Robert E. Kraut (“Familiarity, Complexity, and Team Performance in Geographically Distributed Software Development”) is Herbert A. Simon Professor of Human-Computer Interaction at the HCII, Carnegie Mellon University. He received his Ph.D. in social psychology from Yale University in 1973 and previously taught at the University of Pennsylvania and Cornell University. He was a research scientist at AT&T Bell Laboratories and Bell Communications research for 12 years. Dr. Kraut has broad interests in the design and social impact of computing and conducts research on everyday use of the Internet, technology and conversation, collaboration in small work groups, computing in organizations, and contributions to online communities. **Address:** Human-Computer Interaction Institute and Tepper School of Business, Carnegie Mellon University, Pittsburgh, PA 15213; e-mail: robert.kraut@cmu.edu

Kalle Lyytinen (“Wakes of Innovation in Project Networks: The Case of Digital 3-D Representations in Architecture, Engineering, and Construction”) is Iris S. Wolstein Professor at Case Western Reserve University, an adjunct professor at University of Jyväskylä, Finland, and a visiting professor at University of Loughborough, UK. He currently serves on the editorial boards of several leading IS journals including *Journal of AIS* (Editor-in-Chief), *Journal of Strategic Information Systems*, *Information & Organization*, *Requirements Engineering Journal*, *Information Systems Journal*, *Scandinavian Journal of Information Systems*, and *Information Technology and People*, among others. He became

an AIS fellow in 2004, and has published over 180 scientific articles and conference papers. He has also edited or written 11 books on topics related to the nature of IS discipline, system design, method engineering, organizational implementation, risk assessment, computer-supported cooperative work, standardization, and computing. He is currently involved in research projects that look at the IT-induced radical innovation in software development, IT innovation in architecture, engineering and construction industry, design and use of ubiquitous applications, and the adoption of broadband wireless services in the UK, South Korea, and the U.S. **Address:** Department of Information Systems, Case Western Reserve University, 10900 Euclid Ave., Cleveland, OH 44106; e-mail: kalle@case.edu.

Tammy L. Madsen (“Incumbent and Entrant Rivalry in a Deregulated Industry”) is a Breetwor Fellow and Associate Professor of Strategy at Santa Clara University. She received her Ph.D. in strategy and organization from the Anderson Graduate School of Management, University of California, Los Angeles. Her research interests include the intersection of strategy, competitive dynamics, and organizational evolution. Her recent empirical work examines the competition between entrants and incumbents following industry transformation, the evolution of heterogeneity in performance among firms, and how innovation contributes to competitive heterogeneity. **Address:** Management Department, Santa Clara University, 500 El Camino Real, Santa Clara, CA 95053-0390; e-mail: tmadsen@scu.edu.

Lynne J. Millward (“Putting Employees in Their Place: The Impact of Hot Desking on Organizational and Team Identification”) is Senior Lecturer in Organizational Psychology at the University of Surrey. She received her Ph.D. from the Institute of Social & Applied Psychology at the University of Kent. Her research looks at identity processes and their performance implications in team and organizational contexts using mainly quasi-experimental but also qualitative methods of investigation. **Address:** Department of Psychology, School of Human Sciences, University of Surrey, Guildford, Surrey, GU2 7HX, UK; e-mail: l.purvis@surrey.ac.uk.

Hitoshi Mitsuhashi (“From Plan to Plant: Effects of Certification on Operational Start-up in the Emergent Independent Power Sector”) is an associate professor of organization studies at the University of Tsukuba in Japan. He received his Ph.D. from the New York State School of Industrial and Labor Relations of Cornell University. His research interests include interorganizational relations, strategic change, and industry evolution. **Address:** Institute of Policy and Planning Sciences, University of Tsukuba, Tennoudai 1-1-1 3F1100, Tsukuba, Ibaraki, Japan 305-8573; e-mail: hitoshi@sk.tsukuba.ac.jp.

Sucheta Nadkarni (“The Evolution of Collective Strategy Frames in High- and Low-Velocity Industries”) is Associate Professor of Management at the University of Nebraska, Lincoln. She received her Ph.D. from the University of Kansas, and her research addresses strategic and temporal cognition in fast changing environments. Her research appears in journals such as *Strategic Management Journal*, *Journal of International Business Studies*, and *MIS Quarterly*. **Address:** Department of Management, University of Nebraska, Lincoln, Lincoln, NE 68588-0491; e-mail: vkn22@drexel.edu.

V. K. Narayanan (“The Evolution of Collective Strategy Frames in High- and Low-Velocity Industries”) is Stubbs Professor of Strategy & Entrepreneurship and Associate Dean of Research at LeBow College of Business, Drexel University. His research interests include strategy process, organizational epistemology, technology and innovation management. **Address:** LeBow College of Business, Department of Management, Drexel University, 3141 Chestnut Street, Philadelphia, PA 19104-2875

Tom Postmes (“Putting Employees in Their Place: The Impact of Hot Desking on Organizational and Team Identification”) is Professor of Social and Communication Psychology at the University of Exeter. He received his Ph.D. at the University of Amsterdam where he now also holds an honorary research fellowship in the School of Communication Research. His research interests are group processes and communication, with particular interest in the study of social influence and the social effects of computer-mediated communication in both online and field contexts. **Address:** School of Psychology, University of Exeter, Perry Road, Exeter, Devon EX4 4QG, UK; e-mail: t.postmes@exeter.ac.uk.

Yuqing Ren (“Expertise and Collaboration in the Geographically Dispersed Organization”) is a Postdoctoral Fellow in the Human-Computer Interaction Institute at Carnegie Mellon University, where she also received her Ph.D. in organization science. Her research aims to understand ways through which individuals collaborate to share information, integrate knowledge, and participate in communities of practice. Her work has been published or is forthcoming at *Management Science*, *Organization Science*, and *Organization Studies*. **Address:** Carlson School of Management, University of Minnesota, Minneapolis, MN, 55455; e-mail: yren@andrew.cmu.edu.

Wesley D. Sine (“From Plan to Plant: Effects of Certification on Operational Start-up in the Emergent Independent Power Sector”) is an assistant professor and the J. Thomas Clark Professor of Entrepreneurship at the Johnson Graduate School of Management, Cornell University. Professor Sine’s research focuses on institutional theory, entrepreneurship, organizational structure, and the emergence of new technology sectors.

His work has been published in *Administrative Science Quarterly*, *Management Science*, *Research Policy*, and *Academy of Management Journal*. **Address:** Cornell University, 339 Sage Hall, Ithaca, NY 14850; e-mail: wds4@cornell.edu.

Sandra A. Slaughter (“Familiarity, Complexity, and Team Performance in Geographically Distributed Software Development”) is currently an associate professor at the Tepper School of Business, Carnegie Mellon University. Prior to joining the faculty at Carnegie Mellon University, Dr. Slaughter worked in the industry as a project manager and systems analyst at Hewlett-Packard, Rockwell International, and Square D Corporation. She has consulted with the Information Technology Management Association and with several companies on software design and development-related issues. Her research is motivated by her experience in software development and focuses on the performance implications of software design and development decisions. Currently, she is conducting research funded by the National Science Foundation on project management practices and software design and evolution. She has also commenced new projects that explore capabilities and performance in information technology outsourcing. **Address:** College of Management, Georgia Tech University, Atlanta, GA 30332; e-mail: sandra.slaughter@mgt.gatech.edu.

Gordon Walker (“Incumbent and Entrant Rivalry in a Deregulated Industry”) is Professor and Chairman of the Strategy and Entrepreneurship Group at the Edwin L. Cox School of Business, Southern Methodist University. He received his B.A. from Yale University and an M.B.A. and Ph.D. from The Wharton School, University of Pennsylvania. He has previously taught at the MIT Sloan School of Management, The Wharton School,

and Yale University. He is the author of numerous articles in a wide range of journals and of one book entitled *Modern Competitive Strategy*. **Address:** Edwin L. Cox School of Business, Southern Methodist University, P.O. Box 750333, Dallas, TX 75275-0333; e-mail: gwalker@mail.cox.smu.edu.

Youngjin Yoo (“Wakes of Innovation in Project Networks: The Case of Digital 3-D Representations in Architecture, Engineering, and Construction”) is Associate Professor in Management Information Systems and Irwin L. Gross Research Fellow at the Fox School of Business, Temple University. Prior to joining Temple University, he was Lewis-Progressive Chair of Management at the Weatherhead School of Management, Case Western Reserve University. He was also a research associate at NASA Glenn Research Center in Cleveland, OH, and was a visiting professor at the Tokyo University of Science. He is interested in integrating design approaches in innovations and information technology, knowledge management, and ubiquitous computing. His work was published in leading academic journals such as *Information Systems Research*, *MIS Quarterly*, *Organization Science*, *Communications of the ACM*, *Academy of Management Journal*, *Journal of Strategic Information Systems*, *Journal of Management Education*, and *Information Systems Management*. He is currently editing a book on the Asian-Pacific Mobile Market. He is also serving on the editorial boards of several IS journals, including *Journal of Strategic Information Systems* (senior editor), *Information Systems Research* (associate editor), *Organization Science*, *Journal of AIS*, and *Information and Organization*. **Address:** Fox School of Business, Temple University, 1810 N. 13th St., Philadelphia, PA 19122; e-mail: youngjin.yoo@temple.edu.
