With 12,500 members from nearly 90 countries, INFORMS is the largest international association of operations research (O.R.) and analytics professionals and students. INFORMS provides unique networking and learning opportunities for individual professionals, and organizations of all types and sizes, to better understand and use O.R. and analytics tools and methods to transform strategic visions and achieve better outcomes. For more information on INFORMS, its publications, membership, or meetings visit <http://www.informs.org>

ABOUT AUTHORS

Linda Argote ("Organizational Learning Curves: A Method for Investigating Intra-Plant Transfer of Knowledge Acquired through Learning by Doing") is an Associate Professor of Industrial Administration in the Graduate School of Industrial Administration, Carnegie Mellon University, Pittsburgh, PA 15213. Telephone: (412)268-2290; fax: (412)268-6837; bitnet: LA0M + @ANDREW.CMU.EDU. Dr. Argote received a Ph.D. in Organizational Psychology from the University of Michigan in 1979. Her research and teaching interests include organizational learning, productivity, technology, and group decision making and performance. Her research has appeared in *Administrative Science Quarterly*, *Management Science*, *Organizational Behavior and Human Decision Processes*, and *Science*.

John Seely Brown ("Toward a Unified View of Working, Learning, and Innovating") is corporate vice president and the director of the Xerox Palo Alto Research Center (PARC). He also is cofounder of the Palo Alto-based Institute for Research on Learning (IRL), a nonprofit organization. His multidisciplinary research interests include artificial intelligence, cognitive science, and organizational behavior. He has endeavored to build bridges between these fields and the social sciences. In 1972, he obtained his doctorate in computer and communication sciences from the University of Michigan. Mailing address: Xerox Palo Alto Research Center, 3333 Coyote Hill Road, Palo Alto, CA 94304. Telephone: (415)494-4341; fax: (415)494-4037; e-mail: JSB.parc@Xerox.com.

Michael D. Cohen ("Individual Learning and Organizational Routine: Emerging Connections") is a Professor at the Institute of Public Policy Studies of the University of Michigan, Ann Arbor, Michigan 48109-1220. His research has included laboratory and field studies of organization as well as theoretical contributions which often use computer modelling techniques. His current work is on organizational learning, which he sees as having important implications for the design of information systems and other aspects of organizations. MDCohen@UB.CC.UMICH.EDU is his Internet address.

Rukmini Devadas ("Organizational Learning Curves: A Method for Investigating Intra-Plant Transfer of Knowledge Acquired through Learning by Doing") is Assistant Professor in the Department of Management & Organization, School of Business Administra-

tion, University of Southern California, Los Angeles, CA 90089-1421 (telephone: (213)740-0740; Internet: devadas@merlin.usc.edu). She received the Ph.D. degree in Organizational Psychology and Theory from Carnegie Mellon University in May 1990. Her research interests are in the areas of organizational learning, productivity, and group decision making and performance. She has published in *Organizational Behavior and Human Decision Processes* and is a member of the Academy of Management, the American Psychological Association, and the American Psychological Society.

Paul Duguld ("Toward a Unified View of Working, Learning, and Innovating") is an independent writer and researcher. He was formerly a member of the research staff at the Institute for Research on Learning in Palo Alto. Mailing address: 1555 La Vereda, Berkeley, CA 94708; telephone: (415)848-1843; fax: (415)540-0347.

Dennis Epple ("Organizational Learning Curves: A Method for Investigating Intra-Plant Transfer of Knowledge Acquired through Learning by Doing") is Professor in the Graduate School of Industrial Administration, Carnegie Mellon University, Pittsburgh, PA 15213. (Telephone: (412)268-2265; fax: (412)268-6837; bitnet: DE15 + @ANDREW.CMU.EDU.) He received a B.S. in Aeronautical Engineering from Purdue University, a Masters of Public Affairs from the Woodrow Wilson School, and a Ph.D. in Economics from Princeton University. His research interests include organizational learning, public economics, and the economics of exhaustible resources. His research has appeared in *American Economic Review*, *Bell Journal of Economics*, *Journal of Political Economics*, *Journal of Urban Economics*, *Management Science*, *Public Choice*, and *Science*.

George P. Huber ("Organizational Learning: The Contributing Processes and the Literatures") is the Fondren Foundation Chaired Professor of Business at The University of Texas at Austin. His research focuses on organization theory, design, and decision making. His 1984 *Management Science* article on the nature and design of post-industrial organizations was awarded First Prize in the International Prize Competition sponsored by The Institute of Management Sciences. Since 1985 he and Dr. William H. Glick have been leading a multi-investigator study of changes in the design and effectiveness of over 100

organizations. Mailing address: University of Texas, CBA 4.202, Austin, TX 78712. Telephone: (512)471-9609; fax: (512)471-3937; bitnet: MTAF561@UTXVM.

Edwin Hutchins ("Organizing Work by Adaptation"), Associate Professor, Department of Cognitive Science, University of California, San Diego, La Jolla, CA 92093; office telephone: (619)534-1134; fax: (619)534-1128; e-mail: ehutchin@ucsd.edu. Originally trained as a cognitive anthropologist, Professor Hutchins specializes in the study of cognition outside the laboratory. His work includes analyses of real world cognition in village courts in Papua, New Guinea, with traditional navigators in the Western Pacific, on the bridges of large navy ships, and in the cockpits of commercial airliners.

Daniel Levinthal ("From Dialectic to Convergence: Organizational Adaptation and Environmental Selection") is May Department Stores Term Associate Professor of Management at the Wharton School, University of Pennsylvania. He received his Ph.D. in 1985 from the Graduate School of Business, Stanford University. His current research interests are interorganizational relationships, organizational learning, and industry evolution. Previous articles have appeared in *Administrative Science Quarterly*, *Economic Journal*, *Marketing Science*, *Academy of Management Review*, *American Economic Review*, and *Journal of Economic Behavior and Organization*. He currently serves on the editorial board of *Administrative Science Quarterly*. Mailing address: 2035 Steinberg-Dietrich Hall, The Wharton School, University of Pennsylvania, Philadelphia, PA 19104-6370. Telephone: (215)-898-6826; e-mail: Levinthal@Wharton.UPENN.EDU.

James G. March ("Learning from Samples of Size One and Fewer" and "Exploration and Exploitation in Organizational Learning") is Professor at Stanford University. Mailing address: Graduate School of Business, Stanford University, Stanford, CA 94305-5015. Telephone: (415)723-2105; fax: (415)725-7395; e-mail: FMarch@GSB-LIRA.Stanford.Edu.

Herbert A. Simon ("Bounded Rationality and Organizational Learning") Ph.D., University of Chicago, 1943, is University Professor

of Computer Science and Psychology at Carnegie Mellon University. His research has been concerned with decision making and problem solving by individuals and organizations. In 1978 he received the Alfred Nobel Memorial Prize in Economics, and in 1986, the National Medal of Science. He is author of many books and papers, including *Administrative Behavior*, *Organizations* (with James March) and *Human Problem Solving* (with Allen Newell).

Lee Sproull ("Learning from Samples of Size One and Fewer") is Professor of Management at Boston University. She received her Ph.D. from Stanford University and, prior to Boston University, was on the faculty at Carnegie Mellon University. Mailing address: 704 Commonwealth Ave., Boston, MA 02215. LSproull@BU-Pub.BU.Edu.

Michal Tamuz ("Learning from Samples of Size One and Fewer") received her Ph.D. from Stanford University and is Assistant Professor in the Management Department, School of Business, Rutgers University, New Brunswick, NJ 08903. Her research interests include information processing in organizations, organizational learning, and how organizations manage the risks of industrial crises and technological innovation. In a multi-industry study of safety-monitoring systems, she is currently studying how organizations adjust for the ambiguities of history as they collect information and learn. Electronic mail address: TAMUZ@ZODIAC.RUTGERS.EDU.

Karl E. Weick ("The Nontraditional Quality of Organizational Learning") is the Rensis Likert Collegiate Professor of Organizational Behavior and Psychology at the University of Michigan and former editor of *Administrative Science Quarterly*. He was trained in Psychology at Ohio State University, where he received his Ph.D. in 1962. He studies and writes about such topics as how people make sense of confusing events, the effects of stress on thinking and imagination, and the consequences of indeterminacy in social systems. Mailing address: School of Business Administration, University of Michigan, Ann Arbor, MI 48109-1234. Telephone: (313)763-1339.
