With 12,500 members from nearly 90 countries, INFORMS is the largest international association of operations research (O.R.) and analytics professionals and students. INFORMS provides unique networking and learning opportunities for individual professionals, and organizations of all types and sizes, to better understand and use O.R. and analytics tools and methods to transform strategic visions and achieve better outcomes. For more information on INFORMS, its publications, membership, or meetings visit <http://www.informs.org>

# Volume 40—2006

## Subject Index

- Acknowledgment to referees: 130
- Advanced information: 200
- Air traffic flow management: 29
- Air traffic management: 147
- Air transportation: 133
- Aircraft conflict resolution: 147
- Aircraft routing: 15
- Airline crew scheduling: 300
- Airline equity: 147
- Airline fleet assignment: 497
- Airline fleetings: 517
- Airline operations: 3, 15
- Approximations: 484
- Benders decomposition: 517
- Bounds: 484
- Branch and cut: 117
- Branch and price: 235
- Bulk-service queue: 484
- Bus parking and dispatching: 364
- Circulation of rolling stock: 378
- Collaborative decision making: 29, 133
- Column generation: 74, 313
- Competitive ratio: 200
- Congested flow: 165
- Congestion: 393
- Consistent routes: 269
- Container port terminal: 473
- Continuous approximations: 351
- Continuum approximation: 89
- Crew scheduling: 3
- D/G/c* queue: 529
- Decomposition: 99, 300
- Discrete-time queue: 189
- Distribution strategies: 287
- Driver behavior and traffic stream properties: 165
- Driver staffing: 313
- Dynamic programming: 235
- Dynamic vehicle routing: 74, 421
- Entropy maximization: 269
- Fixed-cycle traffic light: 189
- Fixed-point problems: 44
- Fixed-time control: 484
- Flight scheduling: 15
- Freight transportation: 473
- Future events: 211
- Ground delay programs: 29
- Heuristics: 74, 117, 421
- Home delivery services: 327
- Information: 393
- In memoriam: 1
- Integer programming: 133, 313, 364, 497
- Inventory: 287
- Kinematic waves: 165
- Lagrange relaxation: 99
- Large neighborhood search: 455
- Large-scale optimization: 300
- Linear programming: 133
- Logistics: 117, 439
- Mean delay: 484
- Metaheuristics: 64, 455
- Minimum quantity commitment: 117
- Mixed-integer programming: 147
- Multicommodity flow model: 378
- Multioutput cost functions: 259
- National airspace: 147
- Network evaluations: 179
- Network growth: 179
- Nonlinear equations: 44
- OD matrix estimation: 44
- Online routing problems: 200
- Overflow: 484
- Parallel tabu search: 211
- Performance: 351
- Pickup and delivery problems with time windows: 455
- Probabilistic knowledge: 211
- Production/distribution coordination: 99
- Prospect theory: 409
- Public transportation: 351
- Queueing theory: 189
- Railway transportation: 378
- Real time: 211
- Reference point: 409
- Returns to scale: 259
- Revenue: 517
- Reverse logistics: 235
- Robust operations: 15
- Robust optimization: 300
- Robust scheduling: 497
- Robust solutions: 364
- Route choice: 393, 409
- Route guidance: 44
- Sector workload measures: 147
- Selection and assignment: 117
- Self-organization: 179
- Sensitivity: 540
- Service choice: 439
- Slack time: 529
- Slot exchange: 29
- Split deliveries: 226
- Split delivery vehicle routing problem: 64
- Stationary distribution: 189
- Stochastic ground-holding problem: 133
- Stochastic network equilibrium: 409
- Stochastic programming: 3
- Stochastic vehicle routing: 421
- Strong regularity: 540
- Supply chain management: 99, 287
- Tabu search: 64, 342
- Terminal design: 89
- Terminal operations: 473
- Three-dimensional packing: 342
- Time windows: 74
- Traffic assignment: 269

- Traffic engineering: 189  
Traffic equilibria: 540  
Traffic flow theory: 165  
Traffic light: 484  
Traffic networks: 44  
Transform solution: 189  
Transit operation: 529  
Transit service design: 351  
Transport production: 259
- Transportation economics: 259  
Triangle inequality: 64  
Two-regime models: 165  
Unique route flows: 269  
Urban transportation services: 313  
Valid inequalities: 147  
Vehicle dispatching: 211  
Vehicle routing: 226, 235, 313, 327, 342, 439  
Worst-case analysis: 226
