With 12,500 members from nearly 90 countries, INFORMS is the largest international association of operations research (O.R.) and analytics professionals and students. INFORMS provides unique networking and learning opportunities for individual professionals, and organizations of all types and sizes, to better understand and use O.R. and analytics tools and methods to transform strategic visions and achieve better outcomes. For more information on INFORMS, its publications, membership, or meetings visit <http://www.informs.org>

Volume 41—2007

Subject Index

- Activity time allocation: 15
- Activity-travel behavior: 15
- Air traffic control: 431
- Air traffic delays: 431
- Air traffic flow management: 431, 444
- Air-cargo operations: 457
- Airline industry: 354
- Airport delays: 431
- Airport runway operations: 90
- Auctions: 302
- Aviation security: 182
- Bandit problem: 1
- Berth allocation: 265
- Bicriteria optimization: 527
- Bidding strategies: 302
- Bottleneck: 409
- Branch and cut: 382
- Branch and price: 29, 238, 354
- Carrier fleet management strategies: 302
- Carrier profitability: 302
- Characterization of empirical traffic states: 135
- Closed-loop supply chain: 484
- Collaboration: 206
- Collaborative decision making: 444
- Column generation: 29, 123
- Continuous approximations: 74
- Cooperative heuristic: 470
- Crew scheduling: 354
- Cycle cover: 206
- Decay monotonicity: 409
- Delay management: 527
- Deterministic order-up-to level: 382
- Deterministic queueing: 409
- Discrete choice models: 195
- Discrete time-cost trade-off problem: 527
- Driver learning: 74
- Dynamic fleet management: 281
- Dynamic programming: 107, 281
- Dynamic traffic assignment: 409
- Dynamic vehicle routing: 302, 319
- Electronic commerce: 302
- Exact algorithms: 253, 366
- Expected utility theory: 1
- Extended Kalman filter: 167
- Facility location: 484, 500
- Freeway traffic state estimation: 167
- Freight transportation: 302
- Fundamental diagram: 135
- Granular tabu search: 470
- Ground delay programs: 444
- Hazardous materials: 107
- Heterogeneous fleet: 516
- Heuristic algorithms: 366
- Heuristics: 265
- Homeland security: 182
- Inertia: 195
- Integrated transportation planning: 238
- Interval data: 366
- Inventory routing: 44, 55
- Inventory routing problem: 382
- Lagrangian relaxation: 265, 392, 470
- Large-scale optimization: 238
- Line planning: 123
- Linear programming: 44
- Location routing: 29
- Location routing problem: 470
- Markov decision processes: 332
- Median: 500
- Metaheuristics: 90, 516
- Mixed and revealed preference data: 195
- Multipurpose trip: 500
- Multiretailer inventory problem: 55
- Nested Tobit: 15
- Network revenue management: 332
- Online model parameter estimation: 167
- Online strategies: 319
- Optimization: 238
- Package delivery: 238
- Packing: 253
- Panel data: 195
- Performance measurement: 44
- Phase diagram: 135
- Piecewise linearization: 392
- Preferential bidding system: 354
- Pricing: 281, 302
- Production-inventory-distribution system design: 392
- Public transit operations: 522
- Public transportation: 123
- Real-data testing: 167
- Real-time heuristics: 319
- Revenue management: 457
- Reverse logistics: 484
- Risk analysis: 182
- Risk aversion: 1
- Risk pooling: 392
- Road choice: 1
- Robust optimization: 366
- Routing and scheduling: 107
- Scheduling: 90, 265
- Serial correlation: 195
- Service network design: 238
- Stochastic demand: 319
- Stochastic macroscopic traffic flow model: 167
- Stochastic optimization: 332, 444
- Stochastic vehicle routing: 222
- Supply chain management: 382
- Tabu search: 500
- Terminal management: 265
- Threat detection: 182
- Three-phase traffic theory: 135
- Thresholds: 195
- Time windows: 516
- Traffic dynamics: 135
- Traffic flow theories: 135
- Travel time uncertainty: 1
- Traveler information systems: 1
- Traveling salesman problem: 366
- Truckload transportation: 206
- Utility maximization: 15
- Variable neighborhood search: 500
- Vehicle routing: 55, 74, 253
- Vehicle routing problem: 516
- Vendor-managed inventory: 382
- Yield management: 332
