

ERDBEERENBURG: A SUPPLY CHAIN ANALYSIS

K. KHAMMUANG & H. S. GAN

(Report Outline Sheet)

Each group are required to produce ***one report*** (approximately 2-3 pages) on a ***weekly basis***, describing the activities performed and the results obtained during the week. These weekly reports are ***not*** to be submitted during the week, but should be collated as a ***final report*** to be submitted by the common due date (*4:30pm Friday, April 30, 2004.*). All submissions should be accompanied with the “blue sheet” signed by all members of the group and inserted into the pigeon hole located on the 4th Floor, Block E, Mechanical and Manufacturing Engineering Building. The contents of the weekly reports are outlined as follows:

Week 1: Description of the supply chain and how tasks are delegated among group members.

Week 2: Description of the proposed solution procedures and discussions of their corresponding performances based on the sample data.

Week 3: Performance of your initial plan.

Week 4: Performance of your perturbed plan.

Week 5: N.A.

Week 6: A brief summary supervisor’s presentation.
