Dear Business Leader:

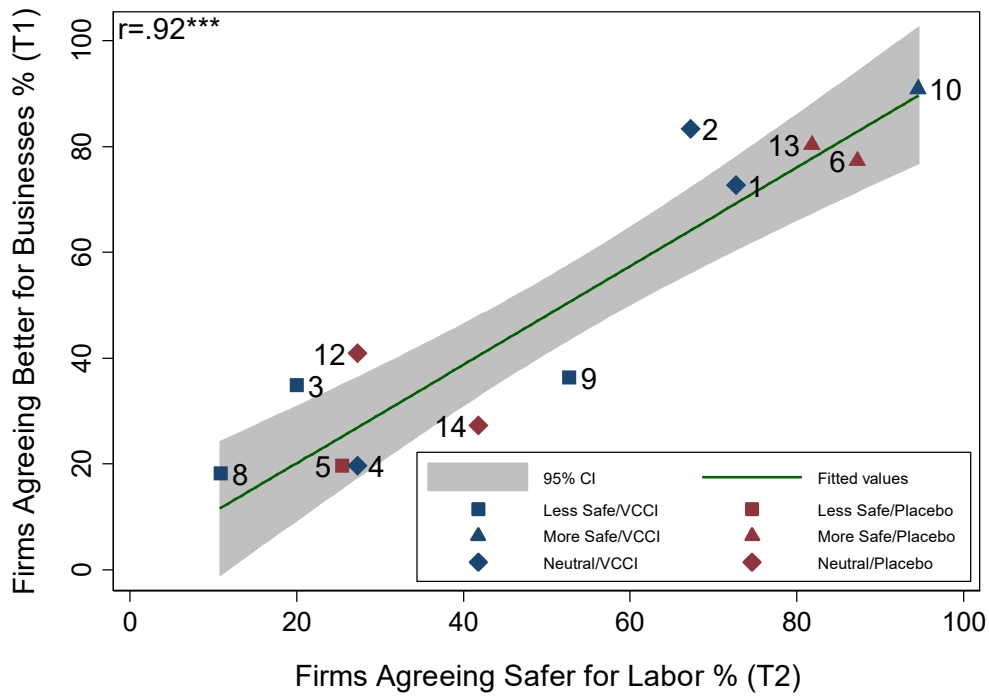

The project “Business Participation in the Drafting of Business Regulations” is a recent initiative of the Vietnamese Chamber of Commerce and Industry (VCCI), which is part of the larger effort to strengthen the role of businesses in the process of policy making and hence improve the business environment in Vietnam.

In pursuit of this goal, we would like to present to you the two versions of the **Draft National Technical Regulation on Occupational Safety in Production, Commerce, Usage, Storage and Transportation of Hazardous Chemicals**, developed by the Labor Safety Bureau of the Ministry of Labor, Invalids and Social Affairs. At this stage, these versions are being compared and reviewed before one of them is sent for final evaluation. In order to select a better version for the evaluation, **we ask that you spare some of your valuable time comment and give suggestions on the draft via link in the email.** By giving your input, you will directly raise your opinion with drafters while contributing to the improvement of the draft.

Upon receiving your completed answers, we would like to send you a credit-card shaped USB (data storage device) that will nicely fit into your wallet. If you are interested, please leave your name and the mailing address to which we can send you our gift. We will delete this information as soon as we send it. From that point on, all data will be analyzed anonymously. **If you do not want the gift, please do not feel compelled to leave your contact information.**

Thank you and we wish you every success in your business ventures.
