

INFORMS JOURNAL ON COMPUTING

Alice E. Smith, Editor-in-Chief | Auburn University

The theory and practice of computing and operations research are necessarily intertwined. The *INFORMS Journal on Computing* publishes high quality papers that expand the envelope of operations research and computing.

We seek original research papers on relevant theories, methods, experiments, systems, and applications. We also welcome novel survey and tutorial papers, and papers describing new and useful software tools. We expect contributions that can be built upon by subsequent researchers or used by practitioners.

Frequency: 4 issues/year (quarterly) | ISSN: 1091-9856 (Print) | eISSN: 1526-5528 (Online) | First Issue: 1989
